Dr. Albert Schweitzer, whose expertise ranged from theology and music to philosophy and medicine, worked as a doctor in Africa for many years. In 1952, he was awarded the Nobel Peace Prize for his humanitarianism and contributions to the field of medicine. His influence remains strong today.

The 150th anniversary of Schweitzer's birth will be celebrated in 2025. On its left side, there is a map of Africa along with images of his hospital in Lambaréné and of him attending to patients.

The stamp was designed by Delta Design Corporation and printed by Cardon Enterprise Co., Ltd. in color offset. By-issues include a first day cover, folders with and without crystal mounts and a loose-leaf album page to be sold on March 26, 2025. A pre-cancelled FDC will go on sale on March 28, 2025, the stamps' date of issuance. For further information, please refer to the upcoming *Philatelic Bulletin* or *Postal Service Today*.
